‘Motion to propose a comprehensive plan for a large-scale Christmas event in 2024, culminating in a spectacular lighting ceremony.

I suggest that this event be meticulously thought out, possibly incorporating a ticketing system to manage crowds effectively. This not only ensures crowd control but also adds an element of exclusivity and anticipation. Additionally, I propose a reimagining of Cork City's lighting events, transforming them into a weekly run-up to Christmas.

To further enhance the experience, a lighting show and various events could be organized throughout the weeks leading up to Christmas. Offering free tickets can be a strategy to encourage people from all over Ireland, particularly the south, to visit and shop in Cork City Centre during this festive period.

That this strategy be thoroughly planned and put together, with details available for Council agreement no later than August 2024.

By doing so, we can ensure a well-coordinated, enjoyable, and economically beneficial Christmas celebration for both residents and visitors alike.’

(Proposer: Cllr. L. Harmon 24/361)

27.4 **JOINT CORK CITY COUNCIL/CORK COUNTY COUNCIL COMMITTEE**

‘That Cork City Council write to Cork County Council requesting that a meeting of the Joint Cork City Council/Cork County Council Committee be convened in September to:

- discuss the fact that the City Council now has to pay an extra €3 million per annum to the County Council under the boundary extension agreement because of inflation in addition to the €13 million that the City Council is already obligated to pay the County Council every year under said agreement;
- enable the City Council members to make submissions to the County Council members outlining how the additional €3 million annual payment is unsustainable from the City Council’s point of view;
- discuss whether a recommendation should be made to the Minister for Housing, Local Government and Heritage, Darragh O’Brien to re-establish the Oversight Committee in accordance with section 24 of the Local Government Act 2019; and

- discuss whether a recommendation should be made to Minister O'Brien that the most efficient and practical course of action to take to resolve the issue would be for Minister O'Brien to direct that the Department make an annual payment of €2 million to Cork City Council for the next 5 years so as to alleviate the crippling inflation associated with the annual payment to Cork County Council.'

(Proposer: Cllr. S. O'Callaghan 24/377)

#### 27.5 **RECRUITING BUS DRIVERS IN THE CITY**

'That Cork City Council will write to the Minister for Transport, Eamon Ryan, outlining the severe difficulties in recruiting bus drivers in the City; the vital importance of recruiting bus drivers to meet the transport and climate action policies of the City, including as an EU Mission City; that Bus Éireann have informed elected members that a shortfall of 35 drivers exists to meet existing service levels, with 16 drivers currently in driver training with the company; that these recruitments will meet only existing service-level demands; that a very significant additional number of drivers will be required to meet the service-level for BusConnects Cork planned for 2025; and requests that his department consequently engages with the Department of Enterprise, Trade and Employment to remove barriers to the recruitment of drivers from overseas, including the addition of bus drivers to the Critical Skills Occupations List.'

(Proposer: Cllr. O. Moran 24/378)

#### 27.6 **UPDATE ON PLANS FOR TRANSPORT IN CORK**

'That Cork City Council ask the CEO of the NTA to come to Cork and engage with Cork City Council on plans for Bus Connects Cork, the maintenance and expansion of the shared bike scheme, the management of current bus service and an update on plans for transport in Cork (currently bus stops/shelters popping up and nobody knows what for and when they'll be in operation).'

(Proposer: Cllr. J. Maher 24/393)

#### 27.7 **LACK OF GARDAÍ IN THE CITY CENTRE**

'That Cork City Council write to the Chief Superintendent, Tom Myers and Garda Commissioner Drew Harris to ask for a meeting to discuss the lack of Gardaí in our City Centre. Our City is a beautiful place, but anti-social behaviour and no Gardaí on the beat has become the norm throughout the City Centre. Garda management locally and nationally must address this and help us to make our streets safer.'

(Proposer: Cllr. J. Maher 24/394)

#### 27.8 **ADDITIONAL RESOURCES FOR THE IMMIGRATION SERVICE DELIVERY**

'It is welcome news that, following on from the protest outside Angelsea Garda Station organised by the Cork Indian Nurses, and with support from the INMO, the system for Irish Resident Permit renewal for Cork is being moved online starting this month. This ends the cruel and unnecessary 5 month wait previously endured by these workers and

their families. However, first time applicants still need to travel to Dublin for registration. This is another unnecessary obstacle that these vital workers are faced with so this Council calls for the allocation of whatever additional resources may be needed to the Registration Office of the Immigration Service Delivery (ISD) of the Department of Justice to allow for local registrations of first time applicants in Cork.'

(Proposer: Cllr. B. McCarthy 24/398)

27.9 **RESOLVE THE DISCOLOURED WATER ISSUE PERMANENTLY**

'After almost two years, Uisce Éireann have still not come forward with any serious plan to deal with the discoloured water issue. In areas where the pipes were extensively flushed several months ago problems are now reoccurring and replacing a few kms of pipes a year is nothing more than a desperate PR stunt when more than 400 kms of pipes need to be replaced. This motion calls for this Council to demand, in the strongest possible terms, that Uisce Éireann come forward with serious proposals that will actually resolve the issue permanently and to establish a clear timeline for this work to be done.'

(Proposer: Cllr. B. McCarthy 24/399)

27.10 **NEWLY HIRE BUS DRIVERS' CONTRACT**

'That Cork City Council will engage with Bus Éireann, TFI, NTA to find out whether a clause exists within the newly hire bus drivers' contract that ties them up with the same salary for 7 years before their pay grade can change. This could be one main reason why they find it hard to hire and keep new drivers.'

(Proposer: Cllr. H. Kamegni 24/401)

## APPENDIX 1

### MOTIONS

An Chomhairle to note the referral to the relevant Committee of the following motions, due notice of which has been given:-

Dates to be confirmed, subject to approval of H2 meeting schedule:-

#### 1. DEDICATED DOG PARKS

‘That Cork City Council consider introducing dedicated dog parks across various locations in our City. Dog parks have proven to be beneficial not only for our furry companions but also for the City and its residents. Here are some key advantages of having dog parks in Cork City:

1. **Promoting Responsible Dog Ownership:** Dog parks provide a safe and controlled environment for dogs to play and socialize. This encourages responsible pet ownership and helps in fostering better-behaved canine companions in our community.
2. **Enhancing Community Engagement:** Dog parks serve as gathering spots for dog owners, creating a sense of community and fostering social connections among residents. This can lead to a stronger and more tightly-knit local community.
3. **Improving Health and Well-being:** Regular visits to dog parks offer both dogs and their owners opportunities for exercise and physical activity. This can contribute to improved health outcomes, including reduced stress levels, lower blood pressure, and increased overall well-being.
4. **Boosting Local Economy:** The presence of dog parks can attract more visitors, both local and tourists, to certain areas of the City. This increased foot traffic can benefit local businesses, such as pet stores, groomers, and cafes located near the parks.
5. **Preserving Green Spaces:** By designating specific areas as dog parks, we can help protect other public spaces, such as playgrounds and recreational areas, from potential damage caused by off-leash dogs. This contributes to the conservation of our City's green spaces for everyone to enjoy.

In light of these benefits, I strongly believe that the introduction of dog parks in Cork City would be a valuable addition to our community. I respectfully urge the Council to consider this proposal and work towards creating more inclusive and pet-friendly spaces for all residents to enjoy.’

(Proposer: Cllr. K. O'Flynn 24/163)

**Environment, Water & Amenity Strategic Policy Committee – 17/09/2024**

2. **LIGHTING IN GLENHEIGHTS PARK**

‘To Cork City Council,

I, Councillor O’Flynn, propose a motion to reinvest in the lighting of Glenheights Park by installing new lighting fixtures and replacing the existing ones that are over 45 years old. As the current lighting infrastructure is outdated and insufficient, it is essential to prioritize the safety and well-being of the residents who utilize the park.

Proper lighting is not only crucial for enhancing the aesthetic appeal of the park but also plays a vital role in ensuring security and promoting nighttime recreational activities. By upgrading the lighting in Glenheights Park, we can create a more welcoming and secure environment for all members of the community.

Therefore, I urge Cork City Council to allocate the necessary resources and funding for this project to improve the overall quality and accessibility of Glenheights Park for the benefit of all residents and visitors.

Thank you for your attention to this matter.’

Can I ask that our Tree Officer takes a look at them with a view to assessing the safety of these trees, and recommend what measures can be taken in the interest of public safety.’

‘I wish to bring to the attention of Cork City Council the extremely dangerous junction at Tinkers Cross, which also includes a pedestrian crossing, (at the corner of Mayfield shopping centre, Hennessey's pub and Kerrigan Tyrell youth centre).

This low lying area is prone to serious water ponding during heavy rains. It is also frequently crossed by many schoolchildren and pedestrians from the local residential area, with many being splashed with water from passing traffic.

As this is the site where a pedestrian was fatally injured two years ago, I urge the Council to immediately introduce appropriate measures to ensure the safety of pedestrians.’

Pedestrians exiting on to the Middle Glanmire Road have to deal with a blind spot to their right-hand side of the road, making it extremely dangerous to cross. Because of this danger posed to pedestrians, I am, as a matter of urgency, calling for the installation of a pedestrian crossing with appropriate signage.

It has become increasingly difficult for residents to access and exit these estates efficiently and safely, given the surge in traffic volumes on these roads. To alleviate this issue and enhance the mobility of residents, I propose that Cork City Council take necessary action to paint yellow traffic boxes outside these estates.
