This significant investment is crucial to safeguarding the health and well-being of our community members, as well as preserving our valuable water resources for future generations. By addressing the issue proactively, we can mitigate potential risks associated with aging infrastructure and ensure a reliable water supply system that meets modern standards.

I urge all Council Members to support this motion in the best interest of our City and its residents.’

(Proposer: Cllr. K. O’Flynn 24/116)

(Proposer: Cllr. F. Dennehy 24/257)

31.5 **ST. KILLIAN’S SPECIAL SCHOOL, MAYFIELD**

‘I want to bring to the attention of the Council, the urgent situation regarding the lack of provision of vital health services to the children of St. Killian’s Special School, Mayfield.

St. Killian's is a primary school that caters for pupils with Dyslexia/Dyspraxia/Speech and Language Disorder and pupils with a diagnosis of Autism and complex needs.

It provides vital interventions to children who can't be easily diagnosed and is a place for children who don't fit in anywhere else. All of the children attending St. Killian’s are in receipt of a psychological assessment that recommends they attend a special school on the basis that they have very complex and specific needs and demand support beyond the abilities of mainstream education.

Since 2020 however, St. Killian’s has not received any hours of therapy in the vital areas of Speech and Language Therapy, Occupational Therapy, Social Work, Play Therapy and Physiotherapy. For context, in 2020 St. Killian’s was receiving 3.5 days of therapy every week. Since that ended, the school has received zero hours.

I have heard of the repeated attempts from St. Killian's Parent's Unite to demand a response from the relevant bodies to provide vital assistance to the children of the school, yet no adequate provision has been made.

I urge members of this Council to use their powers as elected representatives, so that the children of St. Killian's receive the educational supports that they deserve. In addition, I

request that this motion be forwarded to the offices of Taoiseach Simon Harris and Minister Anne Rabbitte, with the full support of the Council.’

(Proposer: Cllr. T. Tynan 24/264)

The footpaths in Monacnappa Estate have significantly deteriorated, posing a considerable risk to the safety of the residents, particularly the elderly. The current condition of these footpaths has reached a level where they are no longer safe for use, and there is a genuine concern that residents, particularly the elderly, may be at risk of serious falls and injuries.

In the interest of public welfare, I propose that Cork City Council takes immediate action to resurface and reinstate the footpaths in Monacnappa Estate. This initiative is crucial to ensure the safety and well-being of the residents who depend on these pathways for daily activities.

I urge the Council to prioritize this matter, considering the potential consequences of delayed action. By addressing the deteriorated footpaths promptly, we can mitigate the risk of accidents and injuries, fostering a safer environment for all residents.’

North West Local Area Committee – 27/05/2024

2. **TRAFFIC CALMING MEASURES ON GLENHEIGHTS ROAD**

‘Dear Members of Cork City Council,

that additional traffic calming measures and speed ramps be introduced on Glenheights Road, specifically from Decky's Shop to Murphy's Rock. This motion is propelled by the utmost concern for the health and safety of the school children attending St. Aidan and St. Oliver's, as well as the elderly residents residing in the area.

Glenheights Road serves as a vital route for students commuting to St. Aidan and St. Oliver's schools, and the absence of sufficient traffic calming measures poses a significant risk to their well-being. Additionally, the lack of speed control mechanisms in this stretch of the road heightens the potential for accidents and endangers the safety of our community members.

Recognizing the vulnerability of school children and the elderly, I urge the Council to prioritize the installation of speed ramps and additional traffic calming measures between Decky's Shop and Murphy's Rock. This initiative aligns with our commitment to creating a secure environment for all residents.'

(Proposer: Cllr. K. O'Flynn 24/051)

North East Local Area Committee – 27/05/2024

3. LIGHTING ON BEALE'S HILL

'Motion to address the growing concern regarding insufficient lighting on Beale's Hill, specifically between Lower Glanmire Road and Lover's Walk in Cork City.

The current lack of adequate lighting in this area has contributed to an increase in anti-social behaviour, posing a risk to public safety. Furthermore, with the rise in popularity of walking between these two areas since the onset of the COVID-19 pandemic, it has become imperative to enhance the lighting infrastructure for the well-being of our community.

I propose that Cork City Council allocates resources and implements additional street lighting on Beale's Hill to ensure a safer environment for residents and visitors alike. This proactive measure will not only deter anti-social behaviour but also encourage more people to utilize this route for walking and recreation.

I urge the Council to prioritize and expedite the installation of these lights to address the immediate safety concerns and enhance the overall quality of life for the community.'

(Proposer: Cllr. K. O'Flynn 24/074)

North East Local Area Committee – 27/05/2024

(Proposer: Cllr. M. Finn 24/110)

South Central Local Area Committee – 27/05/2024

5. PARKING ALONG TRAMORE ROAD

'Cork City Council should undertake an assessment of parking along Tramore Road - by the CETB Campus on the northern side of the road and between the industrial estates on

the southern side - to address concerns expressed by local residents and motorists that accidents are happening given the proliferation of parked cars along this busy stretch of road. The assessment to look at existing road widths with cycle path and a determination as to whether or not the carriageways need an overhaul.’

9. **PLAN FOR TORY TOP ROAD, BALLYPHEHANE**

‘This Council, in consultation with the residents, school and businesses on Tory Top Road, Ballyphehane put in place a plan for the area to improve safety and connectivity for pedestrians in the area.’

Tory Top Road services a supermarket, pub, secondary school, primary school, pre-school, a library, community centre, day care centre, shop, cafe, take-aways and small local businesses and there isn't one pedestrian crossing or traffic light the whole length of the road.

There are also traffic issues in the immediate area of the school and I believe that improved pedestrian crossings in this area would alleviate traffic as it would allow people to access the local schools and services without having to depend on the use of a private vehicle.'

15. **RESURFACE SILVERHEIGHTS ROAD AND UPPER LOTABEG ROAD**

‘That Cork City Council would include Silverheights Road and Upper Lotabeg Road on the Estates Resurfacing Programme for 2025.

North East Local Area Committee – 27/05/2024

16. **NORTHERN RING ROAD JUNCTIONS**

‘That Cork City Council Roads Department would put a plan in place to ensure safe, smooth and regular and efficient traffic flow from the three key junctions feeding on to the Northern Ring Road.

The three junctions in question are currently feeding significant and ever increasing volumes of regular traffic on to the Northern Ring Road from Silversprings Court, Silverheights Road and Boherboy Road.

Hundreds of new houses have been built in recent years and many more are currently in the process of being built in this area, with absolutely no development in the local roads infrastructure having been implemented in order to cope with the significant increase of traffic flow in this area as a result of these necessary housing developments.

This is resulting in absolute traffic chaos on a daily basis for the residents of this growing area and the daily commuters on the Northern Ring Road. A plan urgently needs to be put in place to alleviate this traffic chaos and ensure a safer and a more efficient commute for all users of the Northern Ring Road and the estate roads feeding on to it.’
